

# Precision Data Solutions for APAC Supply Chain Leaders

Industry: Industrials

## Client Overview:

Pacific Rim Logistics, headquartered in Singapore, generates \$850 million in revenue and employs 1,500–2,200 staff across the APAC region.

## Objective:

To access highly accurate APAC-specific lists of Supply Chain Directors and Operations VPs in industrial manufacturing.

## Challenges:

- Ensuring data accuracy across multiple APAC markets.
- Navigating complex regional data privacy regulations.

## Solution:

- Provided verified, region-specific executive lists tailored to industrial supply chain roles.
- Ensured compliance with country-specific data privacy frameworks.

## Results:

- Strengthened outreach efficiency across diverse APAC markets.
- Improved campaign compliance, reducing risk exposure for the client.

## Client Feedback:

"Infodepots delivered not just accurate data, but peace of mind by keeping compliance front and center across the APAC region."
