

Targeted Partner-Level Data for Accounting Firms

Industry: Accounting

Client Overview:

Beacon Accounting Group, headquartered in London, UK, generates £90 million in revenue and employs 110–180 professionals.

Objective:

To obtain accurate lists of high-earning partners (W2 > £200,000) at mid-size accounting firms across the UK and Europe.

Challenges:

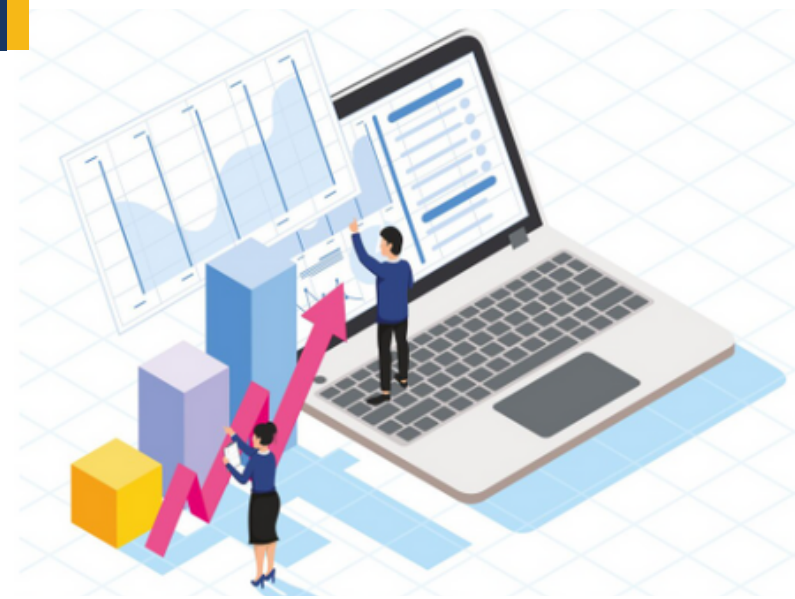

- Navigating GDPR restrictions and varying European data privacy requirements.
- Eliminating outdated or misaligned job title information.

Solution:

- Delivered GDPR-compliant datasets with verified partner-level contacts.
- Ensured data freshness with updated job role validation.

Results:

- Provided accurate and compliant access to key decision-makers.
- Strengthened the client's ability to engage top-tier accounting partners.

Client Feedback:

"Infodepots supplied us with highly precise and compliant datasets, enabling us to confidently target senior accounting professionals across Europe."
